

# Papaya Paw Paw Ointment

## With Calendula

**REAL TESTAMONIALS—THERES A REASON WHY IT'S A BEST SELLER!**

*I am using this product every day! I love it! I have found that the general run of the mill lipglosses burn my lips - something in it doesn't like me! I am almost 23 weeks pregnant and I really don't want to be using anything that isn't natural! This feels so good on and no horrible after taste which is a huge winner with me!*  
- M. H. QLD

*I am a Bikram yoga addict (attending four classes per week). However because I'm in a 40 degree heated room for 90 minutes, my skin dries out very quickly, particularly my lips. "Papaya Ointment with Calendula" to the rescue!! **This cream is amazing.** I'd tried every lip balm on the market and nothing seemed to relieve my dry cracked lips. I will definately be adding "Papaya Ointment with Calendula" to my shopping list when my tube runs out. **Thank you for such an amazing product. There are so many lip balms on the market but none of them add up to their claims like "Papaya Ointment with Calendula" does.*** - N. H. QLD

*i have used other Paw paw ointments but was happy when a skin irritation on my face which usually takes a few days to clear with other brands dissappeared literally overnight. And the ointment was easy to use and left my skin soft and "ungreasy". Congrats - I'm a definite Pure by Phytocare Papaya Onitment with Calendula covert!*

*The Papaya ointment is doing a great job of soothing the drool-affected skin around the mouth of Miss 10 months. It's a really great product and I feel comfortable using it near her mouth. Thanks for putting me on to it!*

*Growing up on the beaches, I spent a lot of time in the sun. Earlier this year my dermatologist identified an actinic keratosis which was precancerous. I had the benign lesion burnt off via laser therapy and was left with a red, inflamed burn on the area. The dermatologist recommended I apply ointment to the area to prevent it drying out and scarring. I decided to try the new papaya ointment with calendula and found it **soothed the burning and itching immediately.** 3 weeks on, I am still applying the ointment daily and **my skin has healed beautifully and the mark has reduced significantly.** Thank you!* - A. H. Sydney

*I love this product and have introduced it to some friends who also love it, it goes on anywhere and everywhere!!!!* - A. W. Dublin, Ireland

*Thanks for the Papaya ointment, when it arrived in the mail I chucked it in the nappy bag & was sure glad I did when the next day we were out & my toddler had a sore bott, **with only 2 applications the nappy rash was all better** & she didn't complain about her sore bott as she normally would. It was good to get the info sheet about the papaya ointment too, it has so many uses. Thanks again.*
